INDUSTRIAL CONTROL TRANSFORMER

VA: 2000

PRIMARY VOLTAGE: 240/347/380

SECONDARY VOLTAGE: 120 x 240

SNC's Industrial Control Transformers are specially designed to accommodate the momentary current inrush caused when electromagnetic components are energized. These transformers deliver excellent secondary voltage requirements and meet or exceed the standards established by UL and cUL. Their rugged construction and excellent electrical characteristics ensure reliable operation of electromagnetic devices and trouble-free performance.

PRODUCT FEATURES

- Enclosed coils completely enclose the transformer coils against moisture, dirt, dust and industrial contaminants for maximum protection in industrial environments.
- Finger-safe terminals integrally built in. Up to 30% greater terminal contact area permits low-loss connections. Extra deep barriers reduce the chance of shorts from frayed leads or careless wiring.
- Terminals are molded into the transformer for a robust, compact design. A full quarter inch of thread on the 8-32 terminal screws prevents stripping and pullout.
- Mounting plate is heavy gauge steel to add strength to core construction and provide stability. Slotted mounting feet permit easy and flexible installation.
- Attractive black matte finish, easy-to-read label with complete wiring diagram.
- Two parallel jumper links come standard with all transformers which can be wired for dual primary voltages.

VOLTAGE TABLE

VA	Primary Voltage	Secondary Voltage	Part Number
2000	240/347/380	120 x 240	P24464
Max Depth	Max Width	Max Height	Mounting Depth
7.98"	7"	5.6471"	5.13"
Mounting Width	Mounting Hole Depth	Mounting Hole Width	Phase
6.13"	0.313"	1.063"	1
Frequency	Shipping Weight	Voltage Group	
50/60 Hz	38 lbs.	N	

DIAGRAM

APPLICATIONS

- Contractors
- Motor Starters
- Robotics
- Control Panels
- Relays
- Solenoids

SPECIFICATIONS

- Class 180°C (356°F) insulation system with 115°C (239°F) temperature rise
- Constructed with high quality silicon steel laminates to minimize core losses and increase performance and efficiency.
- Copper magnet wire of the highest quality assures efficient operation.
- Primary and secondary fusing options available in kits or factory installed.
- UL, cUL listed, CSA certified. CE listing available upon request.
